

Field Operations Manager

Energy Water Solutions, LLC – Houston, Texas

Energy Water Solutions LLC (EWS) is a water technology company that provides evaporative solutions to the energy industry. With its patented VOX™ technology, the company's current focus is on the evaporation of produced and flowback water for the upstream oil and gas industry. EWS's business model is based on the four pillars of: (1) reducing water disposal costs for customers; (2) maintaining an outstanding health, safety and environmental (HSE) culture; (3) achieving utmost reliability in everything; (4) and putting environmental, social and governance (ESG) into action. EWS is a growing company with plans to expand into new markets in 2022 while continuing to provide technological innovation and leadership in water management.

Summary of Job Duties

The Field Operations Manager is responsible for the supervision of staff that operate and maintain the VOX evaporators and the associated equipment. This position is critical for the company's successful field operations, and it requires excellent troubleshooting skills and the ability to communicate clearly and effectively. Primary work environment is outdoor, on pad and will require the candidate to work alongside customers' field operations teams and represent EWS in a positive and professional manner.

Responsibilities:

- Supervise and provide direction to field operator technicians within a geographic territory
- Establish and measure field operations' goals and performance
- Conducts site inspections of VOX and all associated equipment for compliance with requisite procedures; generates reports and recommendations based on findings.
- Coordinates equipment and supplies for mobilizations (demobilizations) to (from) well pads as well as spares and other equipment for ongoing operation.
- Responds to emergency situations and/or incidents, as appropriate.
- Assists in the completion of incident investigation and preparation of Incident Reports and Root Cause Analysis Reports (as needed) and assist in the development of corrective actions and oversee their implementation.
- Working/proven knowledge of oil and gas industry.
- Basic knowledge of federal and state regulations (OSHA, EPA, PADEP).
- Strong analytical and electro-mechanical problem-solving capability.
- Flexibility around work schedule and ability to travel as required.
- Excellent communication skills and the ability to work successfully individually as well as with a wide variety of people at different levels within and outside the organization.
- Ability to keep company propriety information confidential.
- Ability to read and interpret documents such as safety rules, operating and maintenance manuals, and engineered drawings.
- Ability to write routine reports and correspondence.
- Takes ownership and accountability of equipment and operations on assigned site(s).
- Independent thinker with a willingness to learn.
- Ensure company vehicles are properly maintained for safety, appearance, and mechanical longevity.
- Always represent EWS as a professional in appearance and demeanor, even when not "on the clock".
- Attends client meetings and industry conferences/work groups (as required) to keep abreast of industry and customer-standard and emerging policies and trend to maintain Operational/safety compliance.

Essential Job Functions

Physical Demands

- Lifting 100 lbs.
- Carrying 50 lbs.
- Climbing (narrow stairs, ladders etc.)

- Climb Heights (over 7')

Location of Job Activities

- Outdoors - 75%
- Indoors (vehicle) - 25%
- Travel Required - 75% between satellite locations in multiple counties.

Environmental Working Conditions

- Exposure to Seasonal Extremes (heat/cold)
- Wet or humid
- Noise and/or vibrations
- Hazards (chemical, mechanical, radiant energy)
- Atmospheric Condition Exposure to Fumes, poor ventilation, mists, dust, odors, gas etc.
- Moving equipment
- Uneven ground
- Protective FR clothing
- Daily contact requiring courtesy, discretion, and sound judgment.
- Repetitive and continuous duties
- Performing under stress

While performing the duties of this job, the Field Operations Manager is regularly required to stand, reach, walk and lift. The employee/Field Ops. Tech. must occasionally lift and/or move up to 100 pounds, may be occasionally exposed to moving mechanical parts and vehicles, and is regularly exposed to extreme heat or cold, or temperatures consistent with outdoor weather.

Requirements

- High school diploma
- Minimum of 10 years proven experience in the oil and gas industry preferred.
- Minimum of 5 years management of field personnel
